## Art & Science Digital Experience Design – Design Intern

Toronto, CA | May 2019 - August 2019

Worked with developers, UX strategists, and project and account managers to produce a range of designs, products, and strategies for various clients, resulting in successful campaign and product launches.

Presented designs and UX rationale to clients to ensure that business requirements are met while advocating for the user.

Adapted responsive UI designs and supported the web development team during implementation through style guides, design systems, and quality assurance testing.

# StarterHacks - Product Designer

Waterloo, CA | May 2019 - January 2020

Designed a web app using Google Material Design to connect hackers with mentors during a 24 hour hackathon for beginners.

Collaborated with a developer to establish information architecture and product specs guidelines, basing decisions on user interviews.

Conducted usability testing on concepts and reiterated designs to improve usability and validate product features.

## **UW Blueprint - Product Designer**

Waterloo, CA | May 2018 - Present

Collaborating with non-profit organization to build technology with social impact.

Currently designing a scalable web app platform to manage relationships between educators and volunteer speakers in the professional industry by redesigning the information architecture and UI.

Improved the usability of a web app for a set of diverse and illiterate users through user interviews and empathy to refine accessibility resulting in an increase of users on the platform.

# Federation of Students – Graphic Designer

Waterloo, ON | May 2018 - August 2018

Created print and digital assets for various businesses that followed each brand's guidelines.
